The teller of the story "The Good Samaritan"

Is this the best story ever written! Because we know it so well, we may gloss over it. It challenges us on many levels - the inclusiveness of everyone as our neighbour; the way we can pass by human needs, and how the most rejected people can respond positively. It is a story of how many of us miss tragedy under our noses, and how many suffer because of the cruelty of others. It's mainly a story to ask us to respond as positively as we can to all human need.
